## Get Your Public Library Loan

[The Buddha in the Attic \[Kindle Edition\]](#)

Julie Otsuka  (Author)

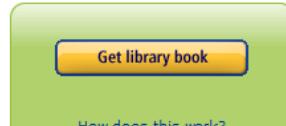

- Public library books require an active Wi-Fi connection for wireless delivery to a Kindle device. Library books will not be delivered via your Kindle's 3G connection.
- Kindle automatically backs up all of your notes and highlights. If you choose to purchase the book at a later date from the Kindle Store or check it out again, all your notes and highlights will be preserved.

**Expiration Date:** January 12, 2012

Once you have checked out your selected titles click the "Get for Kindle" button which will take you out to Amazon's website.

Amazon may prompt you to log into your account

To download the title click the "Get library book" button

Read books on your computer or other mobile devices with our **FREE** [Kindle Reading Apps](#).

### Thanks, Harrison!

Your public library book has been delivered to Harrison's Kindle. Your Kindle will download **The Buddha in the Attic** the next time it connects to Wi-Fi. If you would like to manage your digital titles, go to [Manage Your Kindle](#).

To transfer to your device via USB, click **Download now** ([Learn more](#)).

You can also send your book to other registered devices at [Manage Your Kindle](#) or read on other devices using our [Free Kindle Reading Apps](#).

› [Continue shopping the Kindle store](#)

### To transfer content to your Kindle that you downloaded from Amazon, follow these steps:

- Connect the USB cable (provided with your Kindle) to the Kindle and your computer.
- Your Kindle should appear on your computer in the same location as an external USB drive.
- Open your Kindle drive. You should see a folder entitled "documents."
- Transfer the downloaded files into the "documents" folder of your Kindle.
- Using your computer, eject your Kindle from your computer.
- The content you transferred should now appear in Home.

# Managing your Kindle books

You will be able to manage your library titles from Amazon's website just as you would a purchased title. You will be able to return and delete your borrowed titles from your Amazon account.

# Returning your library titles

Your library books will show up in your Kindle library amongst your purchased items. You can distinguish them because they will have public library next to the title

The screenshot shows the 'Your Kindle Library' interface. At the top, there are search and filter options: 'View: Books' with a dropdown, 'OR', and a search bar 'Search your library' with a 'GO' button. Below this, it says 'Showing 1 - 15 of 18 items'. The main list displays a single item: 'The Buddha in the Attic' by Julie Otsuka, with the status 'public library'. To the right of the list are columns for 'Title', 'Author', and 'Date', with 'Date' currently sorted by 'December 29, 2011'. An 'Actions...' button is located at the top right of the list area. A vertical arrow points down from the 'public library' status to the 'Actions...' button, and another arrow points from the 'Actions...' button to a list of options: 'Deliver to my...', 'Purchase this book', 'Download & transfer via USB', and 'Return this book'.

*After your loan period expires your library title will automatically return itself. You will only need to return it if you finish it early or if you have reached your limit and would like to get something else.*

## To Return your Library book:

- Click on Actions,
- select Return this book
- Confirm Return
- Your title will be returned

A confirmation dialog box titled 'Return Loan Confirmation' appears. It contains the title 'The Buddha in the Attic' and author 'Otsuka, Julie'. Below this, a message asks 'Are you sure you want to return this Library Loan Ebook?'. At the bottom are 'Yes' and 'No' buttons. An arrow points from the 'Return this book' option in the previous list to this confirmation dialog.

# Deleting Library Books from Your Kindle Library

Once you either return your book or time expires you will lose access to the library title but it will not automatically delete itself from your library or from your device. You must manually delete it from your library and your device.
